

Recommended Decodable Readers

01 WHOLE PHONICS-

- The Whole Phonics™ program consists of five levels.
- The first three levels each contain fifteen decodable readers dedicated to a specific phonetic element
- Workbook pages, games and supplemental activities accompany each reader.

02 DANDELION READERS-

- Phonic Books' series for beginner readers introduce only a few sounds and letters at a time to build reading confidence and fluency.
- Catch-up series for older readers ages 8–14+ bridge gaps in phonics skills and reading knowledge.
- They have action-packed storylines and age-appropriate illustrations to engage older readers.
- Easy to use in the classroom, Phonic Books helps to build solid reading foundations for every student.

Recommended Decodable Readers

SYLLASENSE-

- 03
- Texts only include concepts that have been previously introduced and explicitly taught
 - Blending can be used to read all words on the page, with the exception of a small selection of High Frequency Words
 - Books contain natural language structures and are meaning-driven
 - Prefixes and suffixes are introduced in books, providing the opportunity to explore concepts of morphology

CHARGE INTO READING-

- 04
- Grounded in the Science of Reading
 - Starts with short vowel sounds, each stage in the Charge into Reading Decodable Book Series builds on the previous stage.
 - Compelling storylines paired with a strict scope and sequence
